SWAN Community Program – Traidisyon Lakou Lakay – Spring Fest

TLL holds a Spring Fest every year at Little Haiti Cultural Complex. This arts driven spring break camp services elementary and middle school children from the community. It culminates with a showcase of what they have learned for friends and family. SFF artists and team as a part of SWAN Community Program 2015, will volunteer in coaching and setting up for this special showcase. Giving and supporting our young jewels and upcoming young artists is our responsibility as women artists.

ABOUT TLL - In existence since March 2001, TLL is founded on the belief that everyone has hidden talents which at times need to be activated and unveiled. TLL makes that possible by facilitating the opportunity for youth to discover their hidden talents through its programs and partnerships. We are all intelligent individuals and have something to offer to our communities and the world in which we live in.
